

SUICIDE ASSISTANCE OR SUICIDE PREVENTION?

Lessons from Canada on Opposing Euthanasia in New York State

May 1st, 2025

A webinar with Amanda Achtman, Lic.

The New York State Legislature is currently considering legalizing assisted suicide. Legalizing assisted suicide has catastrophic effects on patient care, the doctor-patient relationship, disability rights, and the treatment of the elderly. This webinar will not just be about opposing the current bill: it will include many stories that get to the heart of encountering, understanding, and overcoming the temptation of euthanasia. Join us for a webinar with guest speaker, Amanda Achtman, so you can **get better equipped and inspired for the end-of-life conversations and experiences you are having in your own life - because this concerns all of us.**

Co-Sponsored by:

- *New York State Catholic Conference*
- *Diocese of Rochester, Department of Pastoral Services*
- *Feminists Choosing Life of New York*
- *The Finger Lakes Guild: A Chartered Guild of the Catholic Medical Association*
